

APPLIES TO EVERY SOURCEPOINT PRODUCT

SourcePoint Master Warranty Terms

These terms apply to every SourcePoint product and are incorporated by reference into each product-specific Limited Warranty. Where a product-specific warranty states a different term, the product-specific warranty governs for that product only.

WARRANTOR	SourcePoint Doors and Windows LLC, 4363 Northeast Expressway, Atlanta, GA 30340
EFFECTIVE	Applies to products invoiced by SourcePoint on or after January 1, 2026 .
VERSION	1.3 • Revised September 2026

SECTION 1

Terms Used

“**End User**” means the party who acquires a product for installation and use rather than for resale — in most cases the homeowner at the property where the product is installed.

“**Dealer**” means a party who purchases a product from SourcePoint for resale. A Dealer is the same party as an “Authorized Reseller” under SourcePoint’s Authorized Reseller Agreement (Form SP-RSA-001), and the two terms are used interchangeably.

“**Dealer Portal**” means the online claim and account system SourcePoint makes available to its Dealers.

“**You**” and “**your**” mean the End User. “**Product**” means the item described on the sales order. “**SourcePoint**,” “**we**,” “**us**,” and “**our**” mean SourcePoint Doors and Windows LLC.

SECTION 1A

When Coverage Begins

Coverage begins on the **date of SourcePoint’s invoice to the Dealer**.

SECTION 2

What We Warrant

SourcePoint is the manufacturer of the products it sells under the SourcePoint name and is the warrantor of record for every SourcePoint product. Your warranty is with us, not with a third-party factory, and we do not refer customers to a factory to pursue a claim. Claims are filed through your dealer — see **Section 5**.

SourcePoint warrants that its products are free from defects in material and workmanship, subject to the coverage periods, conditions, and exclusions stated in the product-specific Limited Warranty for your product.

Certain products are made from natural or hand-worked materials. Variation in finish, color, grain, and texture is inherent to those products and is not a defect. Exposure to sun, moisture, and normal use will change the appearance of any exterior product over time. That change is expected and is not covered.

SECTION 3

Warrantor of Record

PRODUCT LINE	WARRANTOR OF RECORD	HOW CLAIMS ARE FILED
Iron doors — Forge	SourcePoint	Through your dealer
Aluminum doors — Element	SourcePoint	Through your dealer
Wood doors	SourcePoint	Through your dealer
Torrefied wood doors — Heritage	SourcePoint	Through your dealer
Fiberglass doors	SourcePoint	Through your dealer
Clearance & surplus	None — sold as-is	N/A

SourcePoint is the warrantor on every line. No SourcePoint product is warranted by a third-party factory, and no claim is ever referred to one. Claims are filed through the dealer you purchased from, who submits to SourcePoint on your behalf — see **Section 5**. Where your dealer is unreachable, SourcePoint takes the claim directly.

SECTION 4

Our Remedy

Upon receipt of a valid claim, SourcePoint will, at its sole discretion, either repair the product, provide a replacement product of like kind and design, or refund the purchase price paid (not the replacement price).

This is your sole and exclusive remedy. In no event is SourcePoint responsible for labor, shipping, finishing expenses, removal of the product, installation of a replacement product, sales tax, or other incidental or consequential charges, costs, expenses, or claims — for either the original or the replacement product — unless expressly required by state law.

Repaired or replaced components are warranted on the same terms and only for the remainder of the original warranty period. **Repair or replacement does not extend the original warranty period.** Color and grain match on replacement components is not guaranteed. SourcePoint reserves the right to discontinue or change products and components, and may substitute a like component of equal quality and price if the original is unavailable.

SECTION 5

Inspection, Reporting, and Claims

SourcePoint products are shipped packaged. **Dealers do not unpackage product.** Inspection therefore happens in two stages, and the reporting deadlines differ accordingly.

Stage 1 — Dealer receipt (product still packaged)

SourcePoint inspects each product prior to release. At this stage the Dealer is checking the packaging, the exterior, the count, and that the product matches the order. **The deadline depends on how the Dealer takes the product.**

Dealer pickup at our warehouse. The Dealer inspects before the product is loaded. Anything visible — crushed or breached packaging, exterior damage, shortage, or wrong product — must be reported **before the product leaves SourcePoint's warehouse.**

Shipment by freight carrier. Where the product is shipped rather than picked up, the Dealer inspects on arrival and notes the condition on the delivery receipt. Visible damage must be reported within **24 hours** of the Dealer's receipt, and shortages or wrong product within **3 business days** of the Dealer's receipt.

Products ship F.O.B. SourcePoint's shipping point; title and risk of loss pass on delivery to the carrier. SourcePoint is not liable for damage occurring during, upon, or after transportation from its warehouse. Transit damage is a claim against the carrier, not against this warranty.

Stage 2 — End User receipt (product unpackaged)

Concealed damage is damage that cannot be seen until the product is unwrapped. Because product remains packaged through the Dealer, concealed damage is discoverable only by the End User. **The concealed damage window therefore runs from the End User's receipt, not from the Dealer's.**

Reporting deadlines

SITUATION	WHO REPORTS	DEADLINE
Damaged packaging, exterior damage, shortage, or wrong product — dealer pickup	Dealer	Before the product leaves SourcePoint's warehouse
Visible damage — freight delivery	Dealer	Within 24 hours of the Dealer's receipt
Shortage or wrong product — freight delivery	Dealer	Within 3 business days of the Dealer's receipt
Concealed damage found on unpackaging	End User	Within 24 hours of the End User's receipt
Any defect of any kind	End User or installer	Before the product is installed, altered, trimmed, or finished

Outer limit. No concealed damage claim may be made more than **twelve (12) months** after the date of SourcePoint's invoice to the Dealer.

A product that has been installed, altered, trimmed, or finished is deemed accepted as to any defect that was reasonably discoverable on inspection.

How to Make a Claim

Claims are made through the dealer or representative from whom you purchased. Your dealer holds the purchase and order records SourcePoint needs, and submits your claim through the Dealer Portal. **Your dealer is required under its agreement with SourcePoint to receive your claim and to submit it within five (5) business days of your written notice.**

Step 1 — Notify your dealer, in writing, as soon as you discover the condition. Email is sufficient. Keep a copy.

Step 2 — Your dealer submits the claim through the Dealer Portal, in writing, with:

1. The SourcePoint invoice number
2. The installation date and address
3. The installer's name and contact information
4. Photographs of the condition — a full-door photo and a close-up
5. A written description of the condition and when it appeared
6. Your name, address, and telephone number
7. Proof of purchase

Claims must be submitted before any repair work begins. SourcePoint has a minimum of thirty (30) days to inspect a product that is the subject of a claim.

Your deadline is met when you notify your dealer — not when your dealer submits. The reporting deadlines above run from the date you notify your dealer in writing. You are not prejudiced by how long your dealer then takes to file.

If you cannot reach your dealer — because they are unresponsive, no longer carry SourcePoint products, or are no longer in business — contact SourcePoint directly at 888-821-D00R (3667) or warranty@sourcepointdoors.com and we will take your claim ourselves.

Trip charge. Most claims are resolved without a site visit — remotely from your photographs and documentation, through a third-party service provider, or by shipping replacement parts or product once the condition is verified.

Where SourcePoint or an approved vendor does need to attend the site, and the condition is found **not** to be covered by this warranty, a trip charge applies. **The amount is quoted to you and agreed before the visit is scheduled.**

No trip charge applies where the condition is found to be a defect covered by this warranty.

SECTION 6

General Exclusions

This warranty does not cover:

- Delivery, installation, removal, reinstallation, or labor charges of any kind
- Damage from accident, misuse, abuse, mishandling, or unreasonable use
- Damage from improper handling, storage, installation, or maintenance
- Damage from alteration, modification, unauthorized repair, or work performed improperly by any party
- Damage from faulty building design or construction, structural settlement, vibration, soil movement, or other building movement
- Damage from tape, tape residue, paint, acid, stain, solvents, or other chemicals
- Damage from fire, flood, earthquake, storm, tornado, lightning, or other Acts of God
- Damage occurring during transportation to or from the delivery site, including damage caused by contractors, inspectors, or delivery companies
- Errors in measurements provided by you or your representative, including your contractor
- Optional accessories, parts, add-ons, equipment, supports, pans, caps, screens, safety or panic hardware, or other aftermarket items, whether or not affixed to a SourcePoint product and whether or not manufactured by SourcePoint
- Products not shielded from the elements by adequate overhang as defined in the **Overhang Requirement** section of your product warranty, except where the product-specific warranty provides otherwise
- Products purchased as “surplus” or “clearance,” which are sold **as-is with no warranty**

SECTION 6A

Storm Doors — Prohibited

 Installing a storm door of any type in front of a SourcePoint exterior door voids the warranty in its entirety.

A storm door traps heat and moisture in the cavity between the two doors. Surface temperatures in that cavity routinely exceed what any exterior finish is designed to withstand, and the result is finish failure, panel movement, and delamination that no manufacturer can warrant against. This applies to **vented and non-vented storm doors alike**, and to all SourcePoint materials.

SECTION 6B

Coastal and Saltwater Environments

Salt air is corrosive. **On some product lines, coverage is reduced for products installed near salt or brackish water**, and the maintenance required to keep that coverage is more demanding.

What counts as a coastal installation — the distance from salt or brackish water — and the terms that apply inside it are stated in your product-specific Limited Warranty, and **they differ by product**. Metal products are affected further inland than others. Do not assume the rule for one product applies to another.

If your project is anywhere near the coast, tell your dealer before you order. Your dealer is required to advise you of any reduced coastal terms before sale, and some products are better suited to coastal conditions than others.

SECTION 7

Ownership and Eligibility

This warranty extends to the **End User** — the first party to acquire the product for installation and use rather than resale. **SourcePoint's invoice is to the Dealer; the warranty nonetheless runs to you, not to the Dealer.** A Dealer is not the beneficiary of this warranty except where the Dealer is also the End User.

This warranty is **non-transferable** and does not pass to any subsequent owner of the property. It applies only to products installed in residential dwellings within the United States, during your ownership.

Multi-resident buildings. Where a product is installed in a condominium, apartment building, or other multi-unit residential building, the warranty period for that product is **2 years, or the product's stated term if that term is shorter**.

SECTION 8

Suitability and Code Compliance

SourcePoint does not guarantee that its products satisfy building codes, ordinances, or regulations for any specific application or jurisdiction. It is the responsibility of the customer, building owner, architect, contractor, and installer to confirm that the products selected conform to applicable local building codes, regulations, plans, and specifications.

SourcePoint is not responsible for determining the suitability of any product for a particular project, design, application, climate, condition, use, or purpose, nor for whether a product will achieve any third-party certification or standard. SourcePoint is not responsible for claims or damage arising from inappropriate product selection, faulty building design or construction, improper installation, or inaccurate measurements or orders.

SECTION 9

Returns

SourcePoint does not accept returns from End Users. SourcePoint sells at wholesale to Dealers. Any return, exchange, or refund available to you is governed by the policy of the dealer you purchased from — **ask your dealer about their return policy before you order**.

SourcePoint does not accept the return of custom-made or special-order product under any circumstance, and a dealer's own policy may be limited accordingly.

Returns by a Dealer of stock purchased for resale are governed by the Authorized Reseller Agreement, not by this section.

A warranty claim is not a return. Nothing in this section affects your coverage under these Terms or under your product-specific Limited Warranty. To make a warranty claim, see **Section 5**.

SECTION 10

Lead Time

Any lead time quoted is an estimate and is never guaranteed. SourcePoint works with third-party logistics providers and with handcrafted products, and cannot guarantee a delivery date. SourcePoint is not responsible for delays outside its control.

SECTION 11

Risk of Loss

Included components — door, frame with threshold, weather stripping, door sweeps, and glass — are verified to be with the product at the time of pickup or, where the product is shipped, at the time it is delivered to the carrier. SourcePoint is not responsible for these items if lost after that point. Replacements may be available at additional charge.

SECTION 12

Water Penetration and Leakage

Adequate overhang is required for all exterior products, except where the product-specific warranty provides otherwise — see the **Overhang Requirement** section of your product warranty. Even with adequate overhang, professional installation is strongly recommended to ensure correct waterproofing. **All waterproofing and installation is the customer's responsibility.** SourcePoint is not responsible for water penetration arising from waterproofing failures or improper installation.

Condensation

Exterior doors can develop condensation when interior humidity is elevated, when heat registers are located near the door, or when there is a large temperature differential between inside and outside. Condensation is not evidence of a manufacturing defect. SourcePoint does not warrant against condensation and is not responsible for damage to the door, trim, or flooring resulting from condensation or “sweating.”

Limitation of Liability

In no event will SourcePoint be liable to any customer or any other party for incidental, consequential, special, or indirect damages, including lost profits or damages resulting from inconvenience, delay, or loss of use. Because some states do not allow the exclusion or limitation of incidental or consequential damages, this limitation may not apply to you. In no event will SourcePoint’s liability exceed the amount paid for the product.

Indemnity

The purchaser agrees to indemnify and hold SourcePoint and its affiliates **harmless** from any liability, claims, losses, costs, and expenses, including attorneys’ fees, arising from the purchaser’s breach of these Terms and Conditions or violation of any third party’s rights. This obligation survives termination of these Terms and Conditions.

Statutory Rights

This warranty gives you specific legal rights. You may also have other rights that vary by state.
